Britain Hopes To Solve Cash Crisis By Fall

By WILLIAM N. OATIS
London, July 11 (P)—Britain hopes to find a solution to her dollar problem by September.

That is the upshot of a three-day, closed-door conference here between United States Treasury Secretary John Snyder, British

Economic Chief Sir Stafford Cripps and Canadian Finance Minister Douglas Abbott.

Before Snyder left for Brussels on the next stage of his European tour, the three issued a joint communiqué. It promised fact-finding discussions right away and more ministerial talks in Washington in September.

"The aim," it said, "must be the achievement of a pattern of world trade in which dollar and non-dollar countries can operate together within one single multilateral system."

The men met at the end of a week which saw Cripps tell Britain her dollar and gold reserves had sunk almost \$400,000,000 below the \$2,000,000,000 danger line, and order a three-month moratorium on all but urgent dollar purchases.

Britain, running out of dollars, has been making exclusive barter deals with countries like Argentina where she needn't pay in scarce currency.

The policies to be reviewed, unindicated in the communiqué, presumably would include such bilateral deals, dollar purchase cuts, and possibly United States tariffs which many Englishmen claim keep this country from earning dollars.

The whole British Commonwealth will sift its financial policies in a conference starting here Wednesday.

Finance ministers of the seven dominions—Canada, Australia, New Zealand, South Africa, India, Pakistan and Ceylon—will meet with Cripps.

Britain's own policies will come under the scrutiny of parliament in a debate starting Thursday in the House of Commons.

Army General And Commodore Killed In Potomac Blast

Washington, July 11 (P)—The general who headed the army's public relations and a retired navy officer were killed when a cabin cruiser exploded on the Potomac river yesterday.

The dead: Maj. Gen. Vernon E. Prichard, 57, and Commodore Wilfred L. Painter, 41, USNR.

Navy Captain Sergius N. F. Loboschitz and Johannes Johansen, 40, steward at the fashionable Corinthian Yacht club, were carried on hospital critical lists to-day.

Witnesses credited Col. Anthony J. Drexel Biddle, one of those aboard, with great personal courage.

Biddle, soldier, athlete and diploma, told reporters the 50-foot cruiser Halcyon was just pulling away from the yacht club dock en route down the Potomac when the explosion occurred.

"I was standing on the bow of the boat with my wife and Mrs. Prichard," Biddle said. "We weren't more than two or three yards from the dock when we heard this huge explosion, and the three of us were shot into the river. There was a lot of debris and flame."

"I swam to my wife and brought her to the dock posts and then grabbed Mrs. Prichard. Both of them were dazed, and I guess I was, too. Then I joined someone else in the water who said that General Prichard had gone down. We dived under and I grabbed him just a few feet beneath the surface and pulled him to shore."

Harbor police theorized that gas fumes collected around the boat's engine during refueling and exploded when the engine started.

All of the ten persons aboard were hurtled into the water. Most of them escaped with minor injuries.

A report to the American military government that all trucks must be completely unloaded for inspection indicated that this figure might be further reduced. An average of 300 trucks a day had been travelling the Helmstedt road lately.

Ford River Story Told At History Outing; 250 Meet For 'Pioneer Day'

Old friends among former Ford River residents who had not met for two decades or more clasped hands and exchanged greetings and joined in telling anecdotes and incidents from early Ford River history at Sunday afternoon's "pioneer day" outing of the Delta County Historical Society.

More than 250 persons, largely residents or former residents of Ford River, attended the outing and program held in the "old growth" forest.

The informal program was highlighted by talks on the history of the Ford River community, one of Delta county's earlier and most important lumbering centers. With the passing of the lumbering era the former mill town has become a popular summer colony, noted for its fine beaches and good fishing. The number of permanent residents is growing rapidly.

History is Told

The Ford River "pioneer day" program was sponsored by the Delta County Historical Society and Frank Bender Jr. of Ford River, president of the organization, explained the purposes of the Society and presented a poem "The Ford River Road," written by the late Douglas Malloch.

John Bartella of Escanaba, formerly of Ford River, was master of ceremonies and introduced the speakers. Bartella also drew upon his own recollections of Ford River days and called a "family roll call" of early-day residents. Many of the descendants of these Ford River "pioneers" were present and responded by standing or contributing an anecdote from the days when Ford River was a prosperous mill town.

Mrs. Paul Rademacher of Escanaba and Ford River presented a paper on the history of the Ford River community in which she described the founding and growth of the town, the construction of its schools and churches, and the work and social life of the people.

Over 1,000 People

"Ford River was a lively community in the years between 1885 and 1911," Mrs. Rademacher said. "Everyone knew the happiness and the troubled times of his neighbor. If trouble came, everyone was ready to help. If a celebration was called for the whole town joined and made it a real one."

"Some might think Ford River a ghost town but that isn't so. Our old town is alive. The part that is gone of the old Ford River lives in our memories—and we bring back those good old days with our friends here today."

At one time Ford River boasted more than a thousand residents—mill folk, farmers, lumber shovels, wives and mothers and school children, and "a galaxy of hell-roaring river hogs."

The settlement began in 1844 when Silas Billings, George Richards and David Bliss, pioneers of Delta county, built a water-powered mill at Uptown.

MUNISING BOY FATALLY HURT

Gary Francis Brown, 5, Struck By Auto

Munising—Funeral services will be held at 9 o'clock Wednesday morning in Sacred Heart church for Gary Francis Brown, five-year old son of Mr. and Mrs. Glenn Brown, of Christmas location, five miles west of here on M-28, who died Saturday evening of injuries resulting from an auto accident.

The rites will be conducted by the Rev. G. F. Harrington. Interment will be in Maple Grove cemetery.

Police reported that James Bovan, 19, of AuTrain, and Gilbert Bovan, 21, who is spending an army furlough at his home in AuTrain, were driving along M-28 through Christmas and swerved their car off the road to avoid hitting a child on the road. The car crashed into Gary, who was riding his tricycle near the road. The boy died enroute to Munising hospital.

Gilbert Bovan is suffering from concussion and is in Munising hospital. James Bovan, who was not seriously injured, is also a patient there. Their car was badly damaged.

No charges had been placed against the men as yet, Alger county sheriff Arthur Moode said.

The accident was the third highway fatality in the county this year.

Gary was born in Munising April 27, 1944 and would have started school this fall. He is survived by his parents, a brother, Dan, and two sisters, Patricia Zeno and family of Chatham.

The body is at Beaulieu's funeral home.

Car Hits Light Pole, Driver Is Ticketed

Mrs. Vernon Ledgerwood of Gladstone, Route One, was ticketed by Escanaba police Saturday night for operating a car without an operator's license.

Mrs. Ledgerwood, who came to Escanaba to give her husband and Ken Carlson, also of Gladstone, Route One, a ride from work, struck a light pole in the 1200 block on Ludington street when she made a complete turn in backing from the curb.

The car, owned by Carlson, was damaged on the left rear side. The light pole was not damaged.

Group Is Attending Michigamme Camp

Attending the Intermediate camp at Lake Michigamme from Memorial Methodist church this week are Sharon Boydston, Mary Beth Hull, Bonnie Peterson, Florence Sutter, Patsy Ward and Janice Watson.

Fancy is a short form of the word, phantasy.

The Escanaba high school band will rehearse Tuesday and Thursday night of this week in preparation for the American Legion parade Saturday, Robert S. Meyer, director, said today.

Those participating in the summer program and appearing in the parade Saturday are as follows:

Joan Nelson, flute; Darlene Carlson, David Gilbert, Mary Hansen, Betty Houle, Barbara Jensen, John Jensen, Fred Johnson, Donna Kidd, Nancy Kjellgren, Joan LaComb, Lorrie LeDuc, John Pillette, George Rouman, Robert Vaudnais and Jean Wickholm, clarinet; Rosemary LaBranche, Betty Lemirand and Beverly Peterson, also saxophones; Jack Frost, Mary Goulet and Glen Larson, tenor saxophones; Harold Cloutier, Conrad Desilets, Gary Grenholm, John Harring, Arnold Johnson, Ronald Nelson, Loyola Peterson and Curtis Trams, cornets; Joan Stratton, French horn; Charles Wickman and David Zerbil, trombones; Carl Bennett and Nancy Farrell, baritones; Jim McCormick and Gordon Packard, basses; Merton Arntzen, Mary Jane Hurley, Donald Kvam, Joan LaCrosse, Irma Paul, and Robert St. Martin, drums; Gerald Rudus, bells; and Carol Christiansen and Joyce Posenke, major-ettes.

Rehearsal Thursday begins at 7:45 p.m.

Regular weekly rehearsals will begin next week and will be held on Thursday instead of Tuesday evenings, July 27 through August 18. Tentative plans have been made for a concert at the U. P. State Fair, Aug. 19. The summer music program will close after the fair.

OBITUARY

EMIL T. ZENO

Funeral services for Emil T. Zeno were held at 2 this afternoon at the Anderson funeral home chapel with Rev. Gustav Lund, Bethany pastor, officiating, and burial was made in Lakeview cemetery.

C. Arthur Anderson sang "Sunrise" and "God's Way Is the Best Way," during the service. His accompanist was Don Aronson.

Pallbearers were Francis Rogers, Steve Burak, Lionel Parker, Robert McDonald, Charles Olund and Glenn C. Fallmer.

Those at the funeral included Mr. and Mrs. Gust Wernholm, Negauene; Mrs. Gunnar Ahlstrom and Clarence Ahlstrom, Detroit; Miss Fredia Schwartz and Mr. and Mrs. Arthur Frechette, Munising; Mrs. Joe Wrona, Muskegon; Glenn Raupe and Mrs. Al Payne, Kalaskaska; and Mr. and Mrs. Carl Zeno and family of Chatham.

Boat Taken—Frank Barron of Flat Rock reported to Michigan State Police this morning that a six foot green boat was stolen last night from his property on the Escanaba river.

Rifle Club—The Escanaba Rifle and Pistol club will hold its weekly practice shoot on Thursday evening at the range northwest of the ski park.

Rural Carriers To Hold Meeting

Plans are now being completed for the forty-seventh annual convention of Michigan Rural Letter Carriers association to be held in Marquette next Tuesday, Wednesday and Thursday, July 12, 13 and 14.

This will be the first time since 1938 that the state convention has been held in the Upper Peninsula. Escanaba was the host city then.

Members of the committee handling arrangements for the convention include Oscar Anderson, Wallace, chairman; Ed Forsman, Crystal Falls, past president; Thur Bryan, Escanaba, president of the Peninsula group; Hugo Tenhunen Ishpeming, past president, and William L. Weston, Marquette.

Jury To Hear Case

The case of Gustav V. Larson vs. George Williams, doing business as the Metropolitan hotel, previously listed for hearing by the court, has been transferred to the jury civil cases for trial by jury.

Scheduled for trial by the court is the civil service case of Lau-

JULY TERM OF COURT OPENED

Judge Jackson Receives Three Guilty Pleas

The July term of circuit court for Delta county opened today in the court house at Escanaba, with Judge Glenn W. Jackson of Gladstone receiving three pleas of guilty and one of not guilty from respondents arraigned on criminal charges.

The guilty pleas were entered by Uno Hjalmer Granat, 23, of Dearborn, charged with second offense, operating a motor vehicle while under the influence of intoxicating liquors; and Nelson Joseph Wagner and Joseph Martinez of Bay City, charged with stealing an automobile last month from the State of Minnesota for taxes, and received reports filed by Thurman B. Doyle of Menominee, receiver and attorney.

The peanut plant, Arachis hy-

gogaea, was believed to have originated in Latin America.

Economic Geology Is Discussed At Camp Munuscong

Miss Helen Martin, research geologist of the geology survey division of the Michigan department of conservation at Lansing, was guest speaker at the conservation laboratory at Camp Munuscong this past week.

Michigan geology was studied and field trips were taken to Raber, Rock View and Albany Island, to study rock formations. Miss Martin explained the economic significance of geology.

The peanut plant, Arachis hy-

gogaea, was believed to have originated in Latin America.

Ruwitch Explains Student Guidance System To Rotary

The student guidance system of the Escanaba public schools is a program of counseling that "tries to come closer to meeting the needs of our young people in present-day society," George Ruwitz, assistant to the principal, Senior High school, told the Escanaba Rotary club at its meeting today noon in the Delta hotel.

Ruwitz is chairman of the guidance committee, composed of Senior High school teachers, and has been a counselor at Senior high since 1941.

Guidance is an extension of teaching as it is done by the teacher in the classroom, he explained. The system provides an opportunity for all of the students to obtain the education best suited to their ability, their need, and their aptitude, he added.

Ruwitz pointed out that only about 15 to 20 per cent of the Senior High school students go on to college. Therefore the primary aim of the guidance system is to fit young people for a life of work in their chosen field.

"It recognizes that we are teaching children, not curriculum subjects," Ruwitz said.

A cumulative record of the school life history of each student is kept, and it is emphasized to students that "you make the record, we keep it." This record assists the students and the counselors in the guidance program when the students reaches Senior high. In addition the counselors assist the students in adjusting themselves to school life, in selecting a vocation, and to decide on the training they will receive. They also aid the student in solving personal problems, Ruwitz said.

New York Federal Judge Charged With Bias In Hiss Trial!

By DOUGLAS B. CORNELL

Washington, July 11 (P)—Two House Republicans apparently are working up to formal demands for an investigation of Judge Samuel H. Kaufman's handling of the Alger Hiss perjury trial.

Reps. Velde (R-II) and Nixon (R-Calif.) are getting ready to back up complaints against Kaufman—they say he favored the Hiss defense—with speeches on the House floor. And the two, partners on the House Un-American Activities committee, may go farther.

Nixon definitely wants an investigation and aides say he will fight to get one. Velde will back Nixon.

An old-fashioned political scrap could result that would give a new twist to the celebrated Hiss-Chambers case—a case that so far has featured charges of espionage and perjury.

Democrats have shown few signs of letting the two young members of the House Un-American Activities committee get an investigation started. And they would have to have some Democratic help.

Kaufman is a Democrat appointed by President Truman. He is a federal district judge in the southern New York district. The Hiss case was his first big one.

Hiss, once a high official in the state department, was tried on charges he lied in saying he did not know former Communist Espionage Agent Whittaker Chambers as late as 1938 and never gave Chambers secret documents.

A new trial is necessary because the jury couldn't agree on a verdict. Eight jurors wanted to convict Hiss. Four wanted to acquit him. All of them quit trying for an agreement Friday night.

Then there was a rush of statements over the weekend.

Nixon said Kaufman had been unfair and there should be an investigation. He said politics figured in the trial, that the Truman administration didn't want anything bad to happen to Hiss because it feared there would be support for reports of Communist infiltration of the government during the new deal.

Grand Jury Indicts 14 For Terrorism At Birmingham, Ala.

Birmingham, Ala., July 11 (P)—Fourteen men were tabbed for arrest today on charges of hooded terrorism in Jefferson county—and this may be only the beginning.

Solicitor Emmett Perry asserted the probe of cross burnings, floggings and night riding would not stop "until the last mobster faces a qualified and intelligent jury."

Perry set into motion the injury that resulted in the grand jury indictment Saturday of the 14 men on assorted charges of violence and intimidation.

The Ku Klux Klan has denied any connection with the night riding terrorism.

Sheriff Holt McDowell said last night the seizure of the 14 awaited only the formality of swearing out warrants. But McDowell did not disclose in advance any names or specific charges.

An anonymous court attendant said unofficially that six of 44 indictments were for first degree burglary, one for intimidation of a witness, one for neglect of duty, and eight for boycotting.

Under Alabama law, boycotting is an act interfering with a person's right to do business. A charge of "neglect of duty" would suggest the involvement of a peace officer.

Need Rooms For 40 Members Of Racine Scouts

Rooms for 40 more members of the national champion Racine, Wis., Boy Scouts drum and bugle corps are urgently needed, it was announced today.

To date, rooms for only 10 have been procured. Parents of local Boy Scouts or others who would like to help out are asked to call James Bailey, Scoutmaster, at 1100.

The Racine Scouts will perform here during the American Legion U.P. convention Friday, Saturday and Sunday. They were one of the big hits at the Marquette Centennial.

Archbishop Locked Up By Czech Reds

Roman Catholic Primate Captive In Palace

By RICHARD KASISCHKE

Prague, July 11 (P)—A visitor to the palace of Archbishop Josef Beran said yesterday the Roman Catholic primate of Czechoslovakia is kept under lock and key by police.

The visitor, a high church leader, said restrictions imposed on the archbishop by the Communists were so severe that the archbishop's residence is "like a cell."

"A plainclothesman unlocks the door to let you in and locks it upon the archbishop when you leave," he said.

The leader of the church's struggle against government control has not left his closely-guarded palace since June 19, the day Communist hecklers broke up his sermon in St. Vitus Cathedral.

Archbishop Beran described himself in his last pastoral letter as a semi-captive. The government says, however, that he is free to leave his palace.

The church leader who visited him said the archbishop intends to remain in the palace as a "gesture of protest against the government actions against the church."

"If he left he undoubtedly would be locked out and this symbol of protest would be lost," the churchman added. He said the 60-year-old primate is in good health and his spirit is unbroken.

Bodyguard of UAW President Missing On Milwaukee Trip

Milwaukee, July 11 (P)—One of Walter Reuther's two bodyguards has been missing since Saturday night, the UAW-CIO president said today.

The guard, Matt Evans, 31-year-old Air Force veteran and International representative, left Milwaukee Saturday night to drive to Madison—75 miles away—to visit an Air Force buddy. He borrowed an auto for the trip from Cy O'Halloran, Los Angeles regional director of the UAW.

Capt. Adolph Kraemer of the Milwaukee police department said today no trace of Evans had been reported. Inspector Hubert Dax said six plainclothes officers from the local department had been assigned to guard Reuther around the closed gates, at a railroad crossing here and was struck by a Chicago-bound New York Central train, the Mercury.

TWO KILLED BY TRAIN

Lawton (P)—Adam Chingo, 60, and Roy Miles, 71, both of Lawton, were killed Saturday when their car swerved around the closed gates, at a railroad crossing here and was struck by a Chicago-bound New York Central train, the Mercury.

Russian Freighter Under Close Watch

U.S. Agents Guard Against Escape Of Soviet Spy

Boys committed to the Starr Commonwealth at Albion have a 91.8 per cent chance of making good as members of society, Levant R. Wheaton, representative of the boys' institution, said in an interesting talk at today's meeting of the Kiwanis club at the House of Ludington.

Kiwanians also enjoyed a fine musical program presented by Julianne Pelletier, formerly of Escanaba, who is now a pianist and vocalist with Station WGN, Chicago.

In his talk, Wheaton traced the development of Starr Commonwealth, since it was founded by Floyd Starr 35 years ago following his graduation from Albion college. The institution is located on 40 acres of land on a lake three miles from Albion.

He and Judith Coplon, justice department analyst convicted in Washington of having transmitted government documents to unauthorized persons, will be tried on specific charges of spying for Russia. Miss Coplon also is free in bail.

A Coast Guard boat circled the ship. Customs guards on the Philadelphia waterfront were given photographs of both Gubitchev and his wife and alerted against the possible flight of either, the newspaper said.

Stalin's Son Says Russian Air Force Is Now Invincible

Moscow, July 11 (P)—Prime Minister Stalin's son, Vassily, a lieutenant general at 29, boasted yesterday the Red air force was "invincible."

In a newspaper article broadcast by Mosco radio, he said Russia laid the foundations of aviation science, progressing from the first helicopter in the world to the present high speed jet planes.

There is not a Russian plane, he said, in which his father's instructions are not embodied. He gave Russian aviators credit as the first to "put out the lights of Berlin." Soviet aircraft designers are "marching ahead of world science," he claimed, and Soviet pilots "fly further, higher and swifter than any."

And Soviet aviators, he added, "stand vigilantly * * * on guard for peace throughout the world."

Vassily was recently promoted from guards major general in aviation to guards lieutenant general. His article was published and broadcast in connection with Russia's aviation day, to be celebrated soon.

Smoke Abatement Conference Planned

TWO fuel combustion experts will come to Escanaba on Friday, July 15, to help local residents solve their smoke nuisance problem. Their appearance in Escanaba is sponsored by the Coal Producers Committee for Smoke Abatement in cooperation with the Escanaba Chamber of Commerce.

The smoke problem in this city is a really serious one. The city steam plant is one offender, although conscientious efforts have been made and are still being made to correct the situation. Unfortunately, some of the other offenders have done little or nothing to improve the smoke problem.

Much valuable information can be secured from the two experts who will be in Escanaba July 15. It is an established principle in fuel operation that smoke stacks that belch volumes of dark smoke and soot are the result of wasteful firing.

The public has reason to hope that the people who should attend the air pollution conference will actually be there, and that they will put into effect the recommendations offered by the two experts.

Unless voluntary action is taken to correct the smoke nuisance, it is a foregone conclusion that provisions for punitive action against violators will eventually have to be made.

Builders Predicts Price Boost In '50

RODNEY LOCKWOOD, president of the National Association of Home Builders, said in Detroit Friday that the cost of new home construction in 1950 will be about 15 per cent higher than in 1949. He cited as a reason for this increase the government's venture in public housing.

Realtor and home building groups are bitter opponents of public housing and it may be that Lockwood's pessimistic prediction is simply a part of the campaign against the government's housing program.

On the other hand, Lockwood's prediction may be genuinely sincere. He said that the housing bill which President Truman is expected to sign will add about one and a half billion dollars to the seven billion dollar volume of construction that private builders expect to do next year. The effect, he said, cannot help to be inflationary.

If Mr. Lockwood is correct, the American public is going to pay plenty for low rent, subsidized housing units in the metropolitan areas, where most of the public housing will be concentrated. The taxpayers not only will pay for a substantial part of the monthly rent of these families but further penalty will be paid by everyone who builds a new home in 1950. Public construction, for which everyone pays his proportionate share, will likewise be affected by this increase in construction costs, if, as Lockwood predicts, it actually materializes.

It will be interesting to watch developments in the home building industry in the next year.

Budget Reforms Are Needed

IF you've spent a lot more money than you expected to and at the same time made considerably less than you thought you would, you can imagine the government's embarrassment these days.

It has just found that in the year ended June 30 it spent \$1,811,000,000 more than it took in from all revenue sources. This budget deficit is three times what President Truman guessed it would be.

The unhappy bookkeeping situation seems to have resulted from both declining revenues and rising expenditures. During the fiscal year just closed, the government's intake dropped \$3,900,000,000 below the previous year, while outgo jumped \$6,000,000,000.

When it comes to affixing blame for the deficit you'd have a hard time mailing it tight without a battery of accountants to help, and several months for analysis.

Administration leaders point scornfully at the Republican-sponsored tax cut law of 1948 and mutter something that sounds like "We told you so."

Other Democrats and nearly all Republicans blame the red ink entries on excessive government spending coupled with the continuing drop in business activity.

Whatever the reason, the hard fact of the deficit is there. It is a new element in the congressional debates on federal economy.

It is especially shocking to the many people who feel there is no excuse for a deficit in peacetime, with business still at relatively high levels.

They must realize, however, that these are not ordinary days of peace. Actually the nation is living in a shadow zone between war and peace. It is fighting a "cold war" with Russia—a bitter combat reaching into every arena but the battlefield.

The money we spend in this strength-sapping struggle amounts to around half our \$41,000,000,000 budget for the 1948-49 year. Much of it goes to foreign countries whose muscles we are trying to toughen against the bullying aggressions of com-

munist.

It would of course be a welcome relief not to have to make these outlays. But any steep cuts in military or foreign aid funds would constitute a sharp reversal of national policy, most likely with shattering effect on the solidarity of western nations.

We are to make any real savings in the immediate future, it is apparent they must come in the government's domestic operations.

Congress has the final responsibility for achieving economy because it votes the money. Currently it is shirking its duty and talking of a resolution that would pass the buck to Mr. Truman by directing him to shave 5 to 10 per cent off 1949-50 expenditures.

Public Works Are Held In Reserve

BY PETER EDSON

Washington (NEA)—As unemployment hangs around the 3,000,000 figure, doggedly refusing to drop, demands for an increase in government public works spending get louder and more insistent.

Nobody in his right mind believes any more that leaf-raking or public works spending will cure a depression. The construction industry accounts for only about 4 per cent of present U. S. employment. But it is one of the least stable segments of the economy. When it starts slipping, other industries are apt to follow. It slipped badly in 1928, for instance. Look what happened in 1929.

From this has grown some belief that if the construction industry can be stabilized, it will help avert slumps in other lines.

Another lesson learned from the last depression is that it takes time to get a construction program going. Public Works Administration had \$3,000,000,000 to spend on useful projects in the 1930's. But it took PWA 18 months to plan and start enough work to get 100,000 men on the job.

Fearing that a serious depression might follow the last war, congress made \$65,000,000 available to the Public Works Administration to aid state and local governments in planning schools, city halls, sewers, auditoriums and so on. Loans from this fund were made repayable when actual construction was started.

The theory that public construction should be curtailed in boom times and expanded in times of depression makes good economic sense. Doing it that way helps stabilize employment at high levels. Also it reduces the cost of government construction projects.

Several bills have been introduced in this session of congress to start planning again.

Democratic Senators Pepper of Florida and Green of Rhode Island have one to provide \$50,000,000 a year non-interest-bearing loans to state and local governments for planning.

Senator James E. Murray of Montana and six other Democrats have in preparation a bill which would make \$7,000,000 a year available to Federal Works Agency to finance planning of a 10-year, \$15,000,000,000 shelf of public works.

One bill which congress has passed and the president has signed provides for federal government planning and site acquisition. It was sponsored by Senator Dennis Chavez of New Mexico. It authorizes \$40,000,000 expenditures for planning new government buildings determined necessary by Postmaster Jesse M. Donaldson and the Federal Works Administrator Jess Larson. In addition, \$30,000,000 would be made available to Public Buildings Commissioner W. E. Reynolds for repair and modernization of existing federal buildings.

There are now more than 4000 new federal buildings proposed. Individual congressmen have introduced hundreds of bills for construction of new post offices in their districts. The Chavez bill will provide plans for 450, or something less than 10 per cent of what are considered necessary. No money has yet been appropriated to do any actual construction, however.

OTHER MEASURES PENDING

Other measures now before congress would of course increase federal construction funds if passed. The public housing and slum clearance bill, Columbia Valley Authority plan, a proposed \$600,000,000 military construction program, flood control, rivers and harbors, reclamation and waterways appropriations will step up expenditures materially. But it is doubtful if the effects of any of this will be felt before 1950.

Perhaps Mr. Silcox was only waiting to get home to raise the alarm there, too, and to advocate filling in the harbor! Asphalted, it would make a fine parking lot, and a big Chinese wall at the lower end would take care of any cheap foreign goods still trying to sneak in.

Other Editorial Comments

A NEW YORKER WARNS US! (Detroit News)

An anti-seaway speaker at Ann Arbor made the point that a deep water channel from here to the ocean would be a two way street, "an inlet for cheaply made foreign goods" as well as an outlet for our own products.

The speaker was a Mr. Silcox of the New York Brake Co.

We thought it was pretty good of him to come all the way out here to warn us of our danger from those cheap foreign goods, and pretty brave, too. To warn us, he had to turn his back on the same danger already existing in his own bailiwick, where New York harbor is naturally a two way street also.

Perhaps Mr. Silcox was only waiting to get home to raise the alarm there, too, and to advocate filling in the harbor! Asphalted, it would make a fine parking lot, and a big Chinese wall at the lower end would take care of any cheap foreign goods still trying to sneak in.

Take My Word For It... Frank Colby

WHERE DID WE GET THAT EXPRESSION

Thirteen is called "a baker's dozen." It was once required that bakers give an extra loaf or bun with every dozen sold to customers. This was to insure full weight.

During the last century, thirteen was also called "a devil's dozen," because of associating the number with bad luck.

A man who breaks a promise, or who backs out or retreats from a position, is said to have "crawfished." The allusion is to the astonishing ability of the crawfish to swim backward when frightened or disturbed. This is accompanied by a powerful and single flip of the tail. The crawfish is more correctly called crayfish. In the South, where it is esteemed for its fine meat and delicate flavor, the crustacean is often called "crawdad."

A person who is blamed for another's derelictions is spoken of as "the goat." This is a shortened form of "scapegoat," a term of Biblical origin. In the sixteenth chapter of Leviticus a scapegoat is described as a goat, chosen by lot, to be presented to the Lord as a sin offering. "But the goat, on which the lot fell to be the scapegoat, shall be presented alive before the Lord, to make an atonement with him, and to let go for a scapegoat into the wilderness." In other words, upon the goat's head the sins of the people were figuratively placed, and when he was allowed to escape into the wilderness, the sins were considered as having been atoned.

They must realize, however, that these are not ordinary days of peace. Actually the nation is living in a shadow zone between war and peace. It is fighting a "cold war" with Russia—a bitter combat reaching into every arena but the battlefield.

The money we spend in this strength-sapping struggle amounts to around half our \$41,000,000,000 budget for the 1948-49 year. Much of it goes to foreign countries whose muscles we are trying to toughen against the bullying aggressions of com-

pany.

do) to earn pin money, or to wheedle it out of the reluctant pockets of their spouses. At one time in England, a husband was required by law to set aside a certain sum of pin money for his wife's exclusive use.

PROTECTION—The only protection against poison ivy is to avoid contact with the plant, and particularly the plant juice containing the irritating acids. These poisons are akin to carbolic acid and raise burning blisters on the skin.

These are some of the factors that must be taken into consideration in planning how many jobs can be provided by a public works program big enough to relieve a depression.

RUARK FULFILLS CALL OF DUTY

Admits Bosoms Are In Public Domain

By ROBERT C. RUARK

New York. Although I have never truckled previously to the Jane Russell field of journalism, which finds sly humor in the trappings ladies strap across their chests, I now do so with a tired sigh and recognize the female bosom as being firmly in the public domain.

This, for an old leg man, is quite an admission, and I assure you that I do not smirk as I now proceed to treat with such a touchy subject. But I do not see how a sincere, cosmic-type columnist can afford to dog his duty to the constituents any longer, not if he be worthy of his pay and the trust of the millions.

There was a time when the normal muscular development of ladies was merely a functional portion of their anatomy, and not a focus either for the advertising writers or the radio gagsmen or the "I'm not... " But that was far-a-past, child, in a social ice-age which we will hereinafter designate as the pre-poses era. By way of addenda I shall define "pose" here.

A "pose" is a new kind of bust bolster, widely advertised in the daily, weekly and month' journals, which needs no strap, no wire, no whalebone in order to protect that which it is supposed to protect. Since I am extraordinarily shy, I have not investigated; I am the engineering which makes this possible, but presume it has something to do with the old suction-cup gimmick which, when glued to the end of an arrow, causes the arrow to stick to the target.

But I stray from uplift to blue-print, and such is not my intention. Said intent is to place the female torso on the privileged list, much as the words "S.O.B." were recently sanctified by Harry S. Truman.

I say—nay, I ringingly proclaim—that no lady can ever again be unduly modest with her upper strata, for a simple reason that the merchandisers have robbed her of her mystery, to the point where the bo-boom is as much the part of our daily reading life as the weather report.

Winsome child that I am, I can now speak freely of falsies, half-cups, uplifts, separations, cleavages, plunging neckline, A, B, C, D-cups, wiring, whalebone, strapless brassieres and the thousand saucy tradenames such as baseball bra and bosom friend that archly proclaim their superiority in confining the femal facade—to lift it, direct it, and accentuate it for the maximum result. This maximum result of which the public eye.

I know all about this intimate lingerie gear because I see quarter, half, and full-page advertisements of same each day as I peruse my press for sparkling details of the Atlantic pact and the English pound-sterling crisis.

Just recently at hand is a Saks advertisement heralding the wonders of a new harness, one of Lady Marlene's "plunging, popular, low-nuff bras covered with real American broadtail and frivolesly named the 'heart warmer,' which costs only \$15 and no fur tax." I believe this is going a touch too far in mammarial exploitation, except possibly for Eskimo ladies, and few Eskimo ladies shop at Saks.

Just how low-low-nuff is I will not say, since I mislaid my slide rule in a burlesque house, but competent scientists have told me off the record that any girl whose middle is not clearly visible on a foggy day is an old spoilsport and will probably die an embittered maiden lady.

This brings us to falsies, a triumph of modern engineering designed, as someone once put it rather tritely, to make a mountain out of a molehill. I have a bitter letter here from a lady client, decrying the use of these

ATTEND WORKSHOP — Menominee county rural teachers are attending Ferris Institute for the annual Rural Education Workshop and it is said that Menominee county is at the head of the list of counties in Michigan. Menominee county has eight teachers at the Workshop and six of them were snapped as they left the Alumni building on the campus. All have been active and busy with the various lectures and study periods during the course.

Shown above are the six teachers from various towns in Menominee county Top row, left to right, Mrs. Margaret H. Olesen, Wallace; Mrs. Helen Julia Theuerkauf, Menominee, studying Teaching Geography and Mrs. Edith Charlotte Johnson, Wallace, taking a course in applied art.

Bottom row, left to right, Mrs. Cecelia L. Parrett and Mrs. Alice Dorothy Winter, both of Stephenson and Mrs. Bertha H. Johnson, Daggett, all studying Rural Sociology.

Gasoline Price Policy Hit By Highway Groups

The policy of the petroleum industry in pricing gasoline, now a matter of investigation by the Senate banking and currency committee, was criticized by a spokesman for the Michigan Good Roads Federation at a recent hearing of that committee in Washington.

Appearing before the committee, L. A. Rubin, director of public information for the Good Roads Federation, described the Federation as representing Michigan's roads interests, and told the committee:

"It is the contention of the Michigan Good Roads Federation that the pricing policies of the petroleum industry penalize Michigan motorists, and impede our highway progress. Available evidence tends to prove that because Michigan has a low state tax on gasoline, its motorists paid greater price increases in the post-war period than did the motorists in those states where the tax was already several cents higher than in Michigan, or was increased since Jan. 1, 1946."

Rubin reported that the Federation had made a gasoline price study for the period from Jan. 1, 1946 to July 1, 1948.

"During those two and one-half years there were tax increases in 12 states, and price increases in all states. In the 12 states levying additional taxes, the price increases averaged 4.53 cents per gallon, whereas in the states where the tax remained the same throughout the period, the price of gasoline was increased an average of 5.61 cents per gallon.

"Michigan motorists paid an ad-

ditional 6.8 cents during the period surveyed," Rubin continued. "Kentucky motorists paid only an additional four cents in the base price of gasoline, and two cents more in gasoline taxes for a total increase of six cents, nearly a cent less than Michigan and a cent and a half less than Ohio, one cent less than Indiana, and 1.4 cents less than Illinois which three states border on Kentucky, but did not increase their taxes on gasoline as did Kentucky."

The statement of the Michigan Good Roads Federation spokesman cites further examples to show "wherein it appears that the main factor governing price increases is the incidence of an additional tax on the product."

The Federation spokesman also informed the committee that the petroleum industry considers all of the states it markets, and that "if the (state) tax is so high in one state that it threatens the consumption of gasoline to a point where the rift will disappear, then that price must be adjusted and the difference made up by the motorists in those states wherein the tax is low."

Michigan motorists will continue to pay a high price for gas-

oline although there is a "low" state gasoline tax, the statement concludes.

"To us in Michigan the issue is whether or not the pricing policies of the petroleum industry will continue to make Michigan motorists pay for road improvements in other states."

Magnetic Survey For Minerals Has Proven Its Worth

Washington, — Surveying the crust of the earth for possible hidden metal ores and petroleum with magnetic instruments has proven its worth, the UNSCCUR will be told at its August meeting at Lake Success, N. Y., by J. R. Balsley, jr., of the U. S. Geological Survey, it was revealed here. He will base his statements on the experience of the Survey over years with the ground-based instrument and experience of the past five years with the airborne magnetometer.

The airborne magnetometer was used during the war floating through the air under and behind an airplane to detect submerged enemy U-boats in the Atlantic ocean. Its findings passed in electric signals to the plane by means of the trailer cable. During and since the war, this type of airborne instrument has been used to survey many thousands of square miles of territory in a search for hidden minerals, and particularly for geological formations in the crust of the earth favorable for petroleum.

UNSCCUR is an international organization promoting worldwide developments through the interchange of scientific knowledge. Its full name is the United National Scientific Conference on the Conservation and Utilization of Resources.

The airborne magnetometer is, according to Mr. Balsley, a high-speed, low-cost reconnaissance geophysical instrument which can be used to produce magnetic maps of the same order of accuracy as those produced by ground magnetic instruments.

It is not well suited for making small detailed surveys or for use in mountainous areas. It is particularly useful in areas which are difficult to traverse on foot, and in combination with radio and radar location systems can be used to conduct surveys over water or other unmapped areas.

The statement of the Michigan Good Roads Federation spokesman cites further examples to show "wherein it appears that the main factor governing price increases is the incidence of an additional tax on the product."

The Federation spokesman also informed the committee that the petroleum industry considers all of the states it markets, and that "if the (state) tax is so high in one state that it threatens the consumption of gasoline to a point where the rift will disappear, then that price must be adjusted and the difference made up by the motorists in those states wherein the tax is low."

Irma Okerlund,
Robert Kaufman
Exchange Vows

White imported marquise over satin was worn by Irma Elinor Okerlund, daughter of John Warner Okerlund, 1415 Stephenson avenue, when she exchanged marriage vows at high noon today in Central Methodist church with Robert Wright Kaufman of Lansing. Rev. Karl J. Hammar read the double ring service.

The bridal gown was designed with a shirred bodice with off-the-shoulder bertha of chantilly lace, round yoke, fitted midriff waistline, and long tapering sleeves coming to points over the wrist, and the full hoop skirt which ended in a circular train had three bands of chantilly lace insertion. Her full fingertip veil of imported illusion was edged with chantilly lace and was caught to a semi-bonnet fashioned of seed pearls and lace. Her jewelry was a single strand of pearls with a diamond clasp, her bridegroom's gift, and she carried a bride's white testament on the cover of which was a single white orchid with a deep fuchsia throat, with white satin knotted shower ribbons.

Bridal Aides

Even in marriage by her father, the bride was preceded down the white-carpeted aisle by three attendants, Miss Irma M. Olson, who was maid of honor and Miss Violet Goldberg of Lansing and Miss Marilyn Nicholson, who were bridesmaids. The maid of honor wore mint green chantilly lace and net over taffeta with a fitted bodice of lace, low portrait neckline and a full skirt of net. An open-crown picture hat of green horsehair braid with ribbon trim and lace mitts completed her costume and she carried a cascade bouquet of carnations and gladioli florettes with yellow and lavender ribbon.

The bridal aides wore identical gowns of rayon marquise over taffeta, Miss Goldberg's of pale lilac and Miss Nicholson's of pale yellow. They were styled with a long fitted bodice with soutache trim, sweetheart neckline, cap sleeves and a full skirt with a peplum forming a large bow in back. Their open crown picture hats of horsehair braid and marquise mitts matched the gowns and they carried colonial bouquets of carnations and gladioli florettes with contrasting ribbons.

Mr. Kaufman, who is a son of Mr. and Mrs. Henry Kaufman of 314 Stephenson avenue, Escanaba, had Norbert Riedy as his best man, and ushering were Walter Okerlund of Washington, D. C., the bride's brother, and Arthur Norlin.

Palms and large standards of gladioli, larkspur and baby mums in pastel shades lighted with white cathedral tapers in candelabra, decorated the church for the service. White satin bows knotted with sprays of garden flowers marked the family pews. Sam Ham, who was soloist, sang "I Love Thee" before the exchange of vows and "The Lord's Prayer" during the ceremony. Bridal music was played by Mrs. Anna Harrod, organist, as the guests were assembling and she also played the traditional bridal processional and recessional and the soft background of music during the service.

Mrs. Oscar Berglund, godmother of the bride, attended the wedding in an aqua silk print with grey and white accessories with which she wore a corsage of deep pink roses. Mrs. Kaufman was in a green and white sheer print with white accessories and tea-roses formed her corsage.

Wedding Luncheon

The wedding luncheon for seventy-five guests was served at the Sherman Hotel. The bridal table centerpiece was the tiered bride's cake, decorated in pastel colors and topped by a miniature bride and bridegroom, with roses arranged around the base of the cake. Lighted tapers and other floral arrangements of snapdragons and garden flowers in the color theme of the wedding, white, green, lilac and yellow, completed the decorations. Each guest was presented with the groom's cake in tiny white boxes with the first names of the bride and groom stamped in silver, tied with white satin ribbons and fastened with miniature bridal couple charms. Organ music was played by Bill Clark as the guests were arriving and during the luncheon.

WED AT HIGH NOON—Bride in a ceremony at high noon today in Central Methodist church, Mrs. Robert Wright Kaufman is the former Irma Elinor Okerlund, daughter of John Warner Okerlund. A luncheon at the Sherman Hotel followed the ceremony. The newlyweds following a honeymoon in Canada will be at home at 223 South Pennsylvania Avenue in Lansing. (Selkirk Studios)

Highway Commission at Lansing.

Guests At Wedding

Out-of-town guests here for the wedding included Miss Violet Goldberg of Lansing, Walter Okerlund of Washington, D. C., Mr. and Mrs. William Kaufman of San Diego, Calif., Miss Martha Hawkins of Washington, D. C., Mr. and Mrs. William Pelmar, Houghton, Mich., and Mrs. Gust Gyllenberg, Brok Gyllenberg and Mr. and Mrs. Albert Gyllenberg of Marinette, Wis., Mr. and Mrs. Clifford Cory of Stephenson, Miss Mary Koser of Hellenville, Wis., Mr. and Mrs. Clyde Johnson of Chicago, Mrs. George Porter of Ypsilanti and Miss Eileen Koehler of Akens City, Mo.

Today's bride was honored at a number of attractive parties previous to her marriage, among them a Sunday morning brunch at the House of Ludington given by a group of close friends, a shower at which the bridegroom's sisters, Mrs. Joseph LaCrosse and Mrs. James O'Dess entertained, a tea given by Delta Rho Chapter of Beta Sigma Phi at the Escanaba Golf and Country club, a tea at which faculty members of Escanaba high school entertained, a shower held in Central Methodist church parlors, arranged by the Wesleyan Service Guild, the choir and other friends of the church and a dinner party at which the students she chaperoned on their trip to the presidential inauguration ceremonies at Washington, D. C., entertained.

Social - Club

Morning Star Meeting

The Morning Star Society will hold a regular meeting Wednesday evening, July 13th at the North Star hall beginning at 8 o'clock. Pot luck lunch will be served following the business session. A large attendance is desired.

Past Noble Grand Club

Past Noble Grand Club of Phoebe Rebekah Lodge No. 179 will meet Tuesday evening at the home of Mrs. Herbert Sundelin, Lake Shore Drive, for a 6:30 o'clock pot luck picnic supper. Members are asked to bring their own table service. A short business session will be held and cards will be played later at Odd Fellows hall. All members are expected to attend, and for further information they may call 2325-21 in case of inclement weather. The picnic will be held at the hall.

Golden Wedding

Mr. and Mrs. Eugene Perron, of 1914 First avenue south, who were married June 26, 1899, recently celebrated their golden wedding anniversary. A picnic at the Big Springs Park near Marquette was given by Mr. and Mrs. Hugh Ray and Mr. and Mrs. Harry Ray of Wells and Mr. and Mrs. Robert Louis of Gladstone and a supper was served at St. Ignace.

Birthday Party

Sally Ann Davis, daughter of Mr. and Mrs. Furney Deiter, who was five years old Saturday, entertained a group of her playmates at a birthday party at Ludington Park. The children played games and were served supper, a large birthday cake, the table centerpiece. Sally Ann received many pretty gifts. At the party were Marcella and Mary Lou Johnivan, Mary and Bruce Bow-

Personal News

Miss Helen Dupuy, 330 South 8th street, has returned from Milwaukee where she attended the wedding of her niece, Patricia Mary Harder to Daniel Hoye. Miss Dupuy also visited with relatives in Eau Claire, Wis.

Mr. and Mrs. Ralph Thomas and three children of Downer's Grove, Ill., are vacationing in Escanaba, visiting with Mr. Thomas' mother, Mrs. Nancy B. Thomas, and other relatives and are at the Brotherton cottages, Ford River Road.

Frank Dupuy who has been a guest at the E. J. Bawden home, 330 South 8th street, for the past week, returned to his home in Flint Sunday.

Mr. and Mrs. Larry Larabee of Detroit, who have been vacationing in Minneapolis and St. Paul, visiting with Mrs. Larabee's people, are guests of Mr. and Mrs. Phil J. Miller at their home at Garth Shores. Mr. Larabee is Mrs. Miller's brother.

Mr. and Mrs. Richard Ellis and son have returned to Negaunee following a week's vacation at the Charles H. Bissell cottage at Garth Shores. They were accompanied to Negaunee Sunday by Mrs. Ellis' mother, Mrs. Charles H. Bissell, sr., who will visit there for a few days.

Mr. and Mrs. Hugh Beath of Chicago are vacationing in Escanaba, Mr. Beath's former home, and are at the Brotherton cottages, Ford River Road.

Mr. and Mrs. George Petersen left Sunday for Chicago where Mr. Petersen will attend the current furniture show.

Dr. G. E. Christie has returned to Blaney Park where he attended the Upper Peninsula Chiropractors' convention in session there the past three days.

Mr. and Mrs. Charles L. McArthur of Detroit, are visiting with members of the McArthur family in Escanaba.

Mr. and Mrs. Lyle Ross and son, Kenneth, of Ventura, Calif., are vacationing at the home of her parents, Mr. and Mrs. Raymond E. Taylor, 1823 First avenue south.

Mr. and Mrs. Walter Meyer are returning to Kenosha, Wis., after spending a week at the home of Mr. and Mrs. Henry Giroux, Nahma, and Mrs. A. L. Giroux, 302 North 14th.

Mrs. Henry R. Nikkila returned to her home in Hancock after spending a week at the home of Mr. and Mrs. D. S. Coon, 306 South 5th.

Mr. and Mrs. Harold Kenny and daughter, Colette, of Detroit, left Friday morning for Munising where they will visit with Mr. and Mrs. Frank Aley, after spending a week at the home of Mr. and Mrs. James Kenny, 1118 South 2nd avenue, parents of Mr. Kenny.

Mr. and Mrs. M. A. Nadeau and Mr. and Mrs. Luther Krantz and children spent the weekend in the Copper Country.

Sue Moran left today for Stevens Point, Wis., where she will be maid of honor at the wedding of a sorority sister at Lawrence College.

Nancy Moran left today for Washington, D. C., and New York City after spending a week at the home of her parents, Mr. and Mrs. John Mitchell, 1012 7th avenue South.

Mrs. Wayne Gladous returned to her home in Green Bay after spending a week at the home of Mr. and Mrs. Evans Lindley, Terrace Apartments.

Robert Cool left today for Chicago where he will be employed.

Mrs. Ella Johnson has returned to her home in Rockford, Ill., after spending a week at the home of her brother and sister, Bill and Aurora Dahlstrom, Whitney.

Mr. and Mrs. Claude Fisher and son, Tom, 812 4th avenue South, left for Milwaukee where they will visit with relatives.

Mary Bakran has returned to Milwaukee after spending several days at the home of her father, Andrew Bakran, Wells. She was accompanied by her sister, Ann, who will spend a week visiting in Milwaukee.

Mrs. W. A. Abendroth has returned to her home in Milwaukee after spending a week at the home of Mr. and Mrs. Walter Dunsmoor, 617 Stephenson avenue.

Kemp Sabourin, son of Mr. and Mrs. Rene Sabourin, 1513 3rd avenue South, and Robert Beauchamp, son of Mrs. Genevieve Beauchamp, 301 North 20th, left today for Ft. Riley, Kansas, after enlisting in the U. S. Army.

Mrs. Allan L. Miserez has returned to Ann Arbor after spending ten days at the home of Mr. and Mrs. Paul DeMille, 516 South 16th St.

J. J. Berry has returned to Milwaukee after spending a week at the Joe Sturgeon camp at Garth Shores on Bay de Noc. Mrs. Berry and daughter will remain at the camp for a month. Mr. and Mrs. Berry are former residents of Escanaba and Mrs. Berry is a sister of Mr. Sturgeon.

Ann Rabito has returned to Chicago after spending a week at the home of her parents, Mr. and Mrs. Joseph Levesque, Schaffer.

Mrs. Henry Fox, 1518 First avenue South, left today for Milwaukee where she will visit with friends.

Mrs. Wallace Finch, who spent the weekend with Mrs. Mollie Walker at 1610 Second avenue south, left this morning to return to her home in Peoria, Ill.

Mrs. Wallace Finch, who spent the weekend with Mrs. Mollie Walker at 1610 Second avenue south, left this morning to return to her home in Peoria, Ill.

G. I. A. Party Tuesday

The G. I. A. to the B. of L. E.

will hold a games party at 2:30

Tuesday at Greiner's hall. The

public is invited.

Blueprint for...

Beauty in the Sun

Continued use of sunburn preventive after a child tans helps to guard its skin against lasting effects of exposure to sun. To protect her skin, sportswoman (inset) re-applies lotion as often as perspiration floats it off.

Births

Mr. and Mrs. Francis Guay of 1012 Second avenue south are the parents of a son, Terry Charles, born Friday morning in St. Francis hospital. The child, first in the family, weighed seven and one-half pounds. Mrs. Guay is the former Geraldine Bink, daughter of Mr. and Mrs. Jake Bink of 1019 First avenue south.

Mr. and Mrs. Jack Porath, Escanaba Route One, are the parents of a daughter, weighing six pounds and twelve ounces, born at St. Francis hospital July 8. There are two other children in the Porath family.

A son was born to Mr. and Mrs. Edward Spaulding of Garden at St. Francis hospital July 8. The baby, the fifth in the family, weighed eight pounds and eight and one-half ounces.

Mr. and Mrs. Robert Peltier of Stonington are the parents of a daughter born July 8 at St. Francis hospital. The baby, who is the second child in the Peltier family, weighed eight pounds and fifteen ounces.

Mr. and Mrs. David H. Brown, 1316 N. 16th street, are the parents of a son, their first child, born July 8 at St. Francis hospital. The baby's weight was six pounds and eleven ounces.

Mr. and Mrs. Vernon (Robert) Reno, 119 South 22nd street, are the parents of a daughter, born at 2:07 a. m. Sunday, July 10, at St. Francis hospital. The baby, the

fourth child in the family, weighed four pounds and twelve ounces, and will be named Cheryl Elizabeth. Mrs. Reno is the former Mary Alice LaPine of Escanaba.

A son was born to Mr. and Mrs. Ross Dewar, 1509 Ludington street, at St. Francis hospital July 8. The baby, the first in the family, weighed five pounds and eleven ounces.

An attractive white enameled aluminum tray that is quickly and easily installed and ends forever the annoyance of damp, discolored floors caused by sweating tanks. You'll say it's the best bathroom investment you ever made!

Ellen Reagan,
Dale Sviland
Wed Saturday

Mr. and Mrs. Charles Reagan of Lake Wawasee, Indiana, announce the marriage of their daughter, Ellen, to Dale Sviland of Escanaba, son of Mr. and Mrs. Arne Sviland. The wedding took place Saturday morning, July 9 in the Little Flower chapel at Wawasee.

The bride wore an ankle length dress of white frosted organdy and carried a bouquet of white orchids and carnations. Miss Lena Reagan, sister of the bride, who was maid of honor, wore peach frosted organdy and she carried a fan-shaped arrangement of peach gladioli.

Erwin Sviland, brother of the bridegroom, was best man.

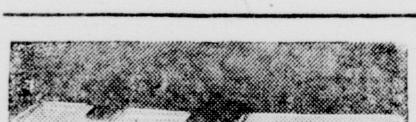

Bridal music was played by Miss Shirley Born of Oak Park organist of the service, and Miss Born also sang "I Love You Truly" and "Ave Maria."

Breakfast and Reception

The wedding breakfast for the immediate family and out-of-town guests was served at the Marine Club on Wawasee. A reception followed at the home of the bride's parents.

After a short wedding trip Mr. and Mrs. Sviland will live in Escanaba. The bride is a graduate of Syracuse high school and Marquette university and has been teaching in Escanaba for the past year. Mr. Sviland, a graduate of Escanaba high school served in the army in the South Pacific area for two years.

Although Alabama ranks fourth as a cotton-producing state, it is the biggest heavy-industry state in the south.

RECENT BRIDE

—

John Dahl, who spoke her marriage vows in a ceremony July 2, is the former Bernita Joyce Gauthier, daughter of the late Mr. and Mrs. Frank Gauthier. Mr. Dahl and his bride will live in Escanaba. (Ridings Photo)

JOB TRAINING MUCH NEEDED

Business And Schools Have Responsibility

By ROGER W. BARSON
New York City.—Seventy-eight out of one hundred of our workers are employed in some phase of business or industry. Fifty out of one hundred of our college graduates become "career businessmen." Yet, various surveys reveal that management is dissatisfied with the training eighty out of one hundred of its recruits get from schools and colleges. What's wrong?

From the time of the Civil War to the era which developed such captains of industry as the Vanderbilts, the Carnegies, and the Rockefellers, business was a private, although perhaps ruthless, development of our resources. These were masters of all they surveyed. They were supplanted by a different breed of business managers at the turn of the century. These were the corporate speculators.

Recently a still newer type of businessman has emerged. He is the professional businessman. He may not hope to own the large enterprise of which he is a part. He inherited his business system from his rugged predecessors. They knew how to overcome the obstacles of their day, but they left today's inheritors with myriad social, economic, and government problems because their system ignored human rights.

TODAY'S NEED

If our business system is to remain great, we must hold to the ideals of private enterprise. "Any company's incentive to make more goods, thus creating more jobs and to invest in research to find new products is limited only by the ability to do so at a profit." We must cherish freedom of opportunity. We must also broaden our democratic concepts to include those human rights so sought today through legislation. But we need more than legislation, because in a sense one never legislates tolerance or freedom or human rights. These are things of the spirit.

What we need most is a spiritual awakening made possible through the cooperative efforts of business, education and the churches. Give us businessmen, educators and preachers who have vision and the will to learn how to work together and to discharge the responsibilities of the great system which we all have inherited.

Business And Education

Poor management and poor preparation for business are the fault of us all. On the one hand, education too often takes place in a vacuum. Often the economics professor is one who dangles a Phi Beta Kappa key from one end of his watch chain and nothing from the other end! Educators talk glibly about preparing youth for life on the one hand and earning a living on the other hand, just as if earning a living was something quite apart from life. One college administrator recently wrote that he does not consider that helping a graduate to find a job any more the business of the college than helping him find a wife! Of course, he was wrong.

Businessmen are just as much to blame for ineffective management as is education. Business has been too busy either making money, fighting depressions, or winning wars to take stock of its own problems, and make long range plans. Self-made businessmen have developed an especial technique for looking down their noses at college professors. This also is a mistake. In short, business has not given education a chance. Let's begin to swap a few ideas.

Conclusion

Any kind of education or business will be a mockery if it does not prepare men for responsible citizenship and effective participation in our great Republic of Free Men. Effectiveness, however, implies more than an acquaintance with principles. It means an on-the-job application of principles. Business can have better management—churches can have better recruits—and education can become better related to life if business, education, and religion will make the effort to work out their problems together.

JUST AN OLD HEN AT HEART — Nippy has adopted a set of quadruplets. Although she's never laid an egg in her life, she's right at home in a bonnet mothering these four little chicks. Nippy's mistress, Rochelle Yamin, of Denver, Colo., received the motherless chicks from a neighbor.

Library Adventure

By Arnold Mulder

Roughly speaking, there have been two types of biographies of George Washington. Quite recently a third type has made its appearance: Douglas Southall Freeman's life of the American who was "first in war and first in peace."

During the nineteenth century many lives of Washington appeared that were nothing else than glorified eulogies. The most fantastic of them all was the famous early biography by Parson Weems that contained the silly cherry tree story. In Weems' book Washington was hardly a man; he was a kind of human god, without fault and without blemish.

But of course Weems was never taken seriously by reasonably intelligent Americans. But the biography by John Marshall, first chief justice of the Supreme Court, was accepted in all seriousness by millions of people and is so accepted by many today. Marshall was the author of the phrase, "first in war, first in peace, and first in the hearts of his countrymen."

And neat though that phrase was, it was after all a politician's description of Washington, not that of an impartial biographer. Marshall's biography cannot be taken seriously by readers who have a regard for the facts.

There were many other lives of Washington during the 19th century built on the lines of these two. All of them without exception retouched the portrait, obliterating the blemishes and painting in virtues that were not actually there.

During the 20th century quite a different biography of Washington made its appearance. In the heyday of the debunkers Washington was a favorite target of writers of this type. Some of them were as fantastic in depreciating Washington as Parson Weems was in eulogizing him. Some of the best of them, like that of Rupert Hughes, still were in a tone of unhistorical depreciation.

When Douglas Southall Freeman had finished his monumental study of Robert E. Lee, his publishers, some of his friends, and he himself felt that the time had come for a truly objective and detailed life of Washington. As a Virginian, Freeman was naturally interested in his state's most famous son. As the biographer of Lee, Freeman had proved that he could study man with complete objectivity whom he personally admired, sketching his weaknesses into the picture as well as his merits. The plan was to treat Washington in the same way.

I have just read the first two

Tourist Business Declines Slightly

Marquette, Mich.—The 1949 tourist patronage in the Upper Peninsula apparently has dropped slightly under 1948 figures, reflecting the general business downturn throughout the country, but some resort proprietors report business in their particular areas continues to improve.

Ferry traffic at the Straits of Mackinac was exceptionally high over the recent Fourth of July holiday weekend and continues well ahead of last year. State ferries there carried 5,980 vehicles—a record for any day in the 26-year ferry history.

Another tourist barometer used by the Upper Peninsula Development Bureau to gauge the extent of vacation travel is the demand for its Lure Book. To date, 40,000 copies of that publication have been sent out, with 80 per cent of that number going to persons who made direct-by-mail requests for it. Between 600 and 700 Lure

books are still being mailed daily. "While this may not be an accurate measure of tourist travel in the Peninsula, it at least reflects the 'vacation desire' of many persons in this north area," said George E. Bishop, secretary-manager of the Development Bureau.

In a spot survey of the entire area, the Bureau learned that business at some resorts is from 20 to 30 per cent under last year,

but in others it ranges from five to 50 per cent higher. All said they believed prospective tourists should make reservations in advance.

A resort proprietor in the Iron Mountain area reported a five to ten per cent boost in patronage,

while one in Iron River said it was a "trifle in advance of last year." A 30 per cent decrease, "due somewhat to local conditions," was told by a Keweenaw proprietor, while a L'Anse establishment reported "full house during the week, but vacancies on weekends."

Over 1300 Attend Colleges in U. P.

Marquette, Mich.—Over 1,300 persons are taking advantage of Upper Michigan's usually cool summer temperatures to obtain an education away from the hot, stifling atmospheres of larger cities.

According to reports obtained by the Upper Peninsula Development Bureau from the Northern Michigan College of Education in Marquette, the Michigan College of Mining and Technology in Houghton and its branch in Sault Ste. Marie, enrollment totals 1,314 this summer at the three institutions. At the Houghton and Sault colleges, the enrollment is 642, including students from 18 states and seven foreign countries, while registration amounts to 672 at the Marquette college.

Fussy About Freshness!
So Is Your A&P

You have nothing on us when it comes to insisting that food be absolutely fresh. That's the only kind we sell and the only kind we buy. All our perishables are carefully selected and inspected by eagle-eyed experts, and rushed to your A&P with the greatest possible speed. Result? You get them extra fresh. Yet you pay nothing extra for them. In fact, A&P's everyday low prices actually save you money on fresh foods. Stop in and see for yourself.

WHEAT BELT CRISIS — This huge pile of wheat was dumped on the ground in Vernon, Tex., by farmers faced with a severe shortage of storage space. Wheat growers in the area are

rushing to complete makeshift granaries to store the precious grain in hopes prices on this year's bumper crop of winter wheat will not drop any further.

Highbrow, Lowbrow; He Prefers No-Brow

By HAL BOYLE

New York (AP) — Are you a high-brow or a lowbrow?

This is the biggest question today in the salons and saloons of Manhattan.

Nobody inquires any more whether you're in society's blue book. No one except maybe a visiting congressman asks whether you are or ever have been a member of the Communist party. And who cares now whether you belong to the National Association of Manufacturers or pay dues to the Glass Workers union? Echo answers: "Not a soul."

Fie on such matters as politics and where a man lives or how he earns his bread. Is he a highbrow, a middlebrow or a highbrow? That's the big payoff.

The controversy was started some weeks ago by a light-hearted article in Life magazine. It classified the "brow level" of people by their tastes in food, furniture, clothing, drinks and literature.

Do you like Stravinsky with your meals or a light white wine? That tabs you, Mac.

Did you buy a new black posture chair for the living room, lady, or did you come home with an overstuffed sofa on your back, you old lowbrow, you? Either way, sister, we know what you are. Ya-a-ay, Ya-a-ay, Ya-a-ay! highbrow, middlebrow, lowbrow.

Why, it's got the whole town going culture crazy. Here in the middle of a heat wave some men would drop dead of sunstroke rather than change from their tweeds into seersucker. Tweeds, don'tcha know—and you'd better know—are a highbrow.

Office receptionists still read Faith Baldwin—but they wrap the book in a dust jacket from the latest novel by Jean Paul Sartre. He's a genuine 24-karat French highbrow existentialist, he is. He must be, or why would he be so cynical?

The bartender draws a foamy glass of beer, and whispers: "Would you mind taking it in the back room? They say it's a lowbrow drink—and the boss wants to keep this a classy joint."

The cop on the beat hauls in a drunk, and the sergeant says: "Throw him in with the other bums."

"But this man says he drinks nothing but an adequate red wine," protests the cop.

"Oh, the sign of a real highbrow," says the sergeant. "Show the gen-man to a private cell. By the way, sir, I'm a red wine man myself. Which do you find most adequate to the palate?"

Class War Is On

Well, boys, this is it. The real class war is on now, the true-blue snobbery based on the altitude of the brow.

If a hostess serves you a cole slaw salad, you know she's either a lowbrow herself or thinks you are. A lettuce and tomato salad

is only a few I. Q. points higher. And if the old girl, after dinner, suggests the group play gin rummy or bridge—don't take this second insult. If you care anything about social standing, scream at her!

"Listen, biddy, you think we're morons? With us it's canasta, the new Argentine game, or we won't pick up the cards!"

Personally, however, I'm going to sit out this latest cultural war. The lowbrows will probably lose, because if they start drinking an adequate red wine the highbrows will immediately decide beer is better. For a highbrow can't stand to be in the majority.

So I'm going to stay neutral. I'm just a "no-brow" myself, not high, not low, not middle. I'll sip red wine with the highbrow intelligentsia, gulp champagne or Scotch and soda with the middle brows or blow beer froth at night with the lowbrows.

I'll loll on a horsehair sofa or perch on a posture chair till my back breaks. I'll even sit on a small tack—if that'll help preserve a cultural truce. But neither for class nor mass will I eat grits with sorghum or read T. S. Eliot by candlelight. I won't be brow-beaten.

And I'll go to my grave secretly convinced that falling hair has made more highbrows in America than Harvard University.

Circus Will Play At Hermansville

Hermansville, Mich.—Under the auspices of the American Legion and Lions Club, the Kelly-Morris circus, now on tour of the mid-western states, will be on the grounds of the school for afternoon and evening performances, Monday, July 11.

Arrangements were made through Commander Leroy N. Floriano, commander of the Hermansville American Legion. Proceeds of the advanced sale will be going to the American Legion and Lions Club.

PERSONALS

Mr. and Mrs. Radcliffe of Wilmott, Ill., are visiting at the home of Mrs. F. Kallio. Mrs. Marie Mathews accompanied them home. Mr. and Mrs. Armas Kallio and

Those attending included Mrs. Palmer Masse, Mrs. Theodore Senecal, Mrs. Victor Buckland, Mrs. Rex Block, Mrs. Edward Soldenski, Mrs. Louis Dowell, Mrs. Clement Soldenski and the hostess, Mrs. Grasser.

Several games of 500 were played during the evening. Mrs. Edward Soldenski received first prize and Mrs. Louis Dowell the cut prize.

GRAND MARAIS

Jerome Roberts Funeral

Grand Marais, Mich.—Mr. and Mrs. Louie Roberts, Dan Roberts, Theodore Roberts and Mrs. Theodore Senecal drove to Newberry Wednesday to attend the funeral of their nephew and cousin, Jerome Roberts.

Jerome had drowned in the Tahquamenon River Saturday while on an overnight fishing trip with his brother-in-law and a friend. Their boat overturned in the swells behind the Falls pleasure boat and the others swam to safety.

His body was not found until Sunday afternoon.

Funeral services were from the Beaudieu Funeral Home in Newberry and Fr. Cordy officiated.

500 Club

Mrs. Albert Grasser entertained the members of the East Town 500 club at her home Wednesday evening.

Those attending included Mrs. Palmer Masse, Mrs. Theodore Senecal, Mrs. Victor Buckland, Mrs. Rex Block, Mrs. Edward Soldenski, Mrs. Louis Dowell, Mrs. Clement Soldenski and the hostess, Mrs. Grasser.

Several games of 500 were played during the evening. Mrs. Edward Soldenski received first prize and Mrs. Louis Dowell the cut prize.

Slump To Get More Painful

(Editor's note: Some industries have been hit harder than others in the "piece-meal" recession we are undergoing. For the country as a whole, things probably will get worse before they get better. The situation is surveyed by Sam Dawson, Associated Press business news columnist, in the following article, the second of three taking our business pulse at mid-1949.)

By SAM DAWSON

New York, (AP)—The slump is expected to get a good deal more painful shortly. Some big key industries, like steel and autos, have yet to feel it. And when they really cut back, it'll raise hob with

all business in the industrial Midwest and east.

The wailing and moaning you've heard to date will just be a whisper to what you'll hear before this year is over.

At the same time, a number of other industries have brighter prospects for the second half of this year. And still others expect that any further slump this fall will be a mild affair for them, only a little worse than now.

Let's look at some of these prospects, starting at the indigo bottom of the industrial rainbow and working up toward the rosy top.

Gloomiest outlook just now are for steel, other metals, coal and, as a result, for the railroads.

Steel hit its peak in a booming first quarter, is now sliding downward fast, expects to hit bottom the first of next year and start back up in the spring quarter. It hasn't

dropped much since then. Non-ferrous metals cut prices drastically after demand died in March. A number of mines have closed, others have cut back the work week. Many feel the worst will be over by August or September but doubt if their pulse will be really strong again before next spring.

Coal mine over-production piled large supplies on the ground. Cold weather will help, but whether costs and prices can be brought down to help coal in its competitive fight with fuel oil and natural gas depends a lot on what comes out of the talks with John L. Lewis.

Furniture Picks Up

Railroad carloadings average lower this year. They are pretty well reconciled to having traffic fall off still more the last half, but they pray for freight rate hikes to offset it. Truck and barge competition bites deeper into their business with each rate increase.

Industries farther along the readjustment trail but still having their troubles are furniture, clothing, shoes, textiles, retail trade and the airlines.

Furniture output is running about 20 per cent behind last year, but it was a lot worse than that a

few months ago. The shoe industry ran into trouble two years ago and is beginning to feel the faint recovery breeze now. Clothing sales and production are now in pretty good balance, but far below the peak. Price differences still split the clothing makers and the retailers.

Cotton textile mills had their shake-down in production and prices a year ago, and expect to be among the first to benefit from any upturn in general business.

Wool mills caught the slump head on at the beginning of the year. Production hit a low point in April and has made its first hesitant upward step. They might get going again the first of the year.

Industries still largely unconstructed but with prospects brighter for the second half of the year are construction and oil.

Building of homes is running behind last year and may stall off further next winter. Industrial building is also easing off. But public and institutional building is increasing and taking up the slack.</

S. R. LOWELL
Manager**MANISTIQUE****Attorney General Calls For Court Action Against Thompson Twp. Officials**

The recent report from the auditor general's office, covering an examination of books and records of Thompson township from March 20, 1946 to March 20, 1949, may bring about court action against certain township officials named in the report.

The office of Attorney General Stephen J. Roth, it is revealed,

Local Lion Club Committees Are Named For Year

Leonard Multhaup, president of the Manistique Lions club, announced the committees for the ensuing year at a regular meeting of the club held Tuesday evening at Denny's restaurant.

The various committees follow:

Attendance—Adam Heinz, Constitution and by-laws—Alex Robertson and John I. Belaire.

Convention—C. E. Leonard and George Kerr.

Finance—Walter G. Wilson, Earl Cox and Kenneth White.

Lions information—Wallace Severs and William Dref.

Membership—Roy Anderson, Hugh Kennedy and William Philbin.

Program—Frank Gierke, Publicity—Harry Secore and William L. Norton.

United Nations—John C. Hanson and John Orr.

Greeter committees—E. E. Cookson.

Agricultural—Clayton Reid.

Boys' and girls' work—Fred Bernhard, Nick Parente and John Orr.

Citizenship and patriotism—Howard Hewitt, Ronald Fiegel, and Frank Pavlot.

Civic improvement—O. F. Smits, William Moreau and Ronald Field.

Community betterment—Ernest Eckland, Harold Plichta and C. E. Leonard.

Education—William L. Norton, Health and welfare—Vern Lindereth, Pete Gorsche and Renold Anderson.

Safety—Kenneth White.

Sight conservation and blind—Dr. E. D. Branyan, George Kerr and Frank Richards.

Custodian—John I. Bellaire.

Food—William Phillion and George Kerr.

Music—Pete Gorsche.

The sale of tickets for the Lions circus on July 25 and general plans for the coming year were discussed at the meeting.

The surf bird nests on the mountain tops of central Alaska but winters in South America. For nearly 150 years after the bird was given its scientific name, ornithologists were unable to locate its breeding ground.

MARCH OF TIME**Boots And Her Buddies****Freckles And His Friends**PHONE 155
DAILY PRESS BLDG.
111 Cedar Street**CITY BRIEFS**

Mrs. Tekla Peterson and son, Henry, returned to their home in Chicago, Saturday, after spending a week here and a few days in Trenary with Mrs. Carl Holmgren.

Mrs. Alma Ekstrom returned Thursday from Detroit where she has been visiting at the home of her daughter and son-in-law, Mr. and Mrs. Walter Labana. Mr. and Mrs. Labana accompanied her to Manistique and spent the weekend here.

Mrs. John Berry and son, Joseph, of Detroit, are guests at the home of Mr. and Mrs. V. Weber, Arbutus avenue.

Miss Carol Musolf, of Milwaukee, has arrived here for a visit with Rev. and Mrs. Herbert Waller, Walnut street.

Mr. and Mrs. E. E. Cookson left Saturday for Boston, Mass., where Mr. Cookson will attend the National Hardware Congress. They will be gone a week.

Forms which each member of a swim class must have filled out, are obtainable from Miss Cheadle.

Various play activities are in full swing. A tennis tournament is scheduled to be started here on July 19 and local players have been invited to participate in an invitational tournament at Escanaba early in August.

Mr. and Mrs. Versal Cournaya and three children, of Brown City, are visiting here with Mrs. Cournaya's mother, Mrs. Mary Holmberg, Garden avenue. Also visiting at the Holmberg home is Pfc. Fred Martin, who has just arrived from Japan where he spent 28 months. He will return to Roswell, N. Mex., after a week's visit here with his aunt and other relatives.

Mr. and Mrs. Glen Critton have arrived from Detroit for a vacation stay at Indian Lake.

Mr. and Mrs. Seb Rubick and family, left Sunday for a week's trip to Grand Rapids, Kalamazoo, and other points in Lower Michigan.

SOCIAL**Thaxton-Stone**

The home of Mrs. Nina Stone, Michigan avenue, was the scene of the pretty wedding on Saturday, July 2, of Miss Ruth Thaxton of South Boston, Va., and Graydon R. Stone of this city.

Rev. William Schobert, pastor of the First Baptist church, performed the double-ring ceremony as the couple stood before a white altar decorated with white peonies and lighted candlebra.

Mrs. Thomas Shampine, sister of the bridegroom, was bridesmaid and Thomas Shampine attended the room as best man.

The bride was attired in a dark blue crepe dress and carried a bouquet of yellow roses. Mrs. Shampine wore a dark blue flowered crepe and carried a bouquet of pink roses.

A wedding supper was served to relatives and close friends following the ceremony.

The couple are making their home in Manistique.

Offer Opportunity For Young Folks To Learn Golfing

The recreation department is in receipt of a letter from R. G. Hentschel, of the Indian Lake Golf Club, inviting the department to organize golf among the boys and girls of Manistique and Schoolcraft county. The only limitation is that the youngsters must not be over sixteen years of age.

In the past several years the golf association has been very generous in providing playing facilities for the youngsters of the community. Regular schedules and records have been kept and although the participants have been too few the opportunity is exceptional. Local boys and especially girls are urged to borrow dad's clubs and get out to the lovely Indian Lake Golf Club every Monday and Wednesday morning and take advantage of the FREE offer of the Association. Let's go boys and girls.

BRIEFLY TOLD**Social**

The annual experience social of the Women's Association of the Presbyterian church, will be held at the Leslie Bouschor cottage on Wednesday at 1 o'clock. Pot luck lunch will be served with coffee and cream being furnished.

Members must bring their own table service, and their dollar with accompanying rhyme. A board meeting will be held following the luncheon. Committee members are: Mesdames Leslie Bouschor, Omer Olsen, Victor Deemer and Irma Brown.

Macabees—A regular meeting of the Lady Macabees will be held July 12 at 8 o'clock at the home of Mrs. Earl Cox, Main street.

SENEY

Seney, Mich.—Mr. and Mrs. Bill Hutt from Detroit and Basil Hutt from Kalamazoo were guests recently of Mr. and Mrs. Clyde Hutt.

Marion Boonenberg from Marion, Ohio, is visiting here with her parents.

Mr. and Mrs. Frank Short have moved here from Detroit. They will operate a mink ranch.

Mrs. Stella Linberg from Grand Rapids is spending a few days here at the home of her brother, William Boonenberg.

Mrs. E. Ketola and infant daughter, Linda Lee, arrived home from the Newberry Clinic Friday.

The U. S. mail is handled in more than 40,000 railroad stations in the United States.

TOM BOLGER
Manager**GLADSTONE**PHONE 3741
Rialto Bldg.**SWIMMERS NEED PHYSICAL CHECK****Urge Exam Before Diving Instruction Begins**

In order to protect children from possible harm, Miss Catherine Cheadle, recreation director, is requesting all children in the swim classes to have a physical checkup.

Diving instruction is to be started and children with heart ailments might have the condition aggravated if they were included in the class. A checkup will reveal their condition and they could be eliminated from the diving instruction. All, however, may continue in the swim classes.

Recent guests at the home of Mrs. Mary Holmberg, Garden avenue were: Mr. and Mrs. Joseph Vanderstelt and Mr. and Mrs. Robert Vanderstelt and daughter, of Muskegon, and Miss Lena Mae Martin of Milwaukee.

Mrs. John Berry and son, Joseph, of Detroit, are guests at the home of Mr. and Mrs. V. Weber, Arbutus avenue.

Miss Carol Musolf, of Milwaukee, has arrived here for a visit with Rev. and Mrs. Herbert Waller, Walnut street.

Menominee, Iron River In U. P. Baseball Finals

Haglund Paces Perkins To 7-1 Win Over Fayette

BAY DE NOC SCORES

Perkins 7, Fayette 1
Cooks 12, Cornell 5
Rapid River 6, Garden 0
Nahma 6, Rock 2

Perrins, July 11 — It was Haglund all the way here Sunday when he downed the Fayette team of the Bay de Noc league, 7-1. Fayette took the lead in the second and Perkins did not break the scoring column until the fourth when they scored three runs, then added one in the fifth and three in the sixth on timely blows. Perkins played errorless ball for the first time in a long time.

Cubs End Buc Win Streak; Cop Twin Bill

Pittsburgh, July 11 (P) — The Chicago Cubs put a decisive halt to the Pirate eight game win streak yesterday, sweeping both ends of a doubleheader, 8-6 and 9-6. The nightcap was an abbreviated six inning affair, cut short by Pennsylvania's Sunday curfew law. A disappointed crowd of 29,317 witnessed the Pittsburgh rout.

COOKS TAKES CORNELL: JUNIOR NADEAU HOMERS

Cooks, July 11—Those formidable Cooks baseballers, winners of the Bay de Noc league championship in 1947 and 1948 and first half of 1949, started off the second half like Bay de Noc titles were personal property when they pasted a 12-5 defeat on Cornell here yesterday afternoon.

Despite the loss, it was a commendable showing for the Cornell group, a newcomer in the league.

Cornell held a 2-0 lead until the third inning when the bubble burst and Cooks scored three in the third, two in the fourth and the champions tied it up in the bottom of the ninth.

The winning run was scored by T. Aho, who doubled and came home on Latvala's sharp single.

Paul Begovac relieved Rukkilon on the Trenary mound in the third inning and permitted only three hits the rest of the way—12 inn-

ings, that is.

Begovac also came through with a homerun with one on.

Menominee, champion of the 11th district, and Iron River, champion of the 12th district, will meet in the Fifth Zone or Upper Peninsula American Legion junior baseball championship finals in Escanaba Saturday, July 16.

The game here this coming Saturday will be a feature of the American Legion U. P. convention.

Menominee and Iron River won berths in the finals by triumphing in their respective district playoffs Saturday and yesterday.

In the 11th district playoffs at Munising Saturday, Manistique, 5-3, and Escanaba trimmed Gladstone, 13-1. The luck of the draw gave Manistique clear sailing to the finals, while the Cubs of Escanaba had to face Menominee in a second-round or semifinals match.

Famous Party-Giver Will Leave Capital

By ESTHER TUFTY

Washington — Who will succeed Perle Mesta as the No. 1 party-giver in Washington?

That's what is being talked about over the tea cups here.

Now that Mrs. Mesta is leaving

for Europe to become our American minister to the little grand duchy of Luxembourg,

there is wild speculation as to whom will be able to attract the glittering guest list which made the parties of the rich widow from Oklahoma the most notable in the capital.

The one hostess who could exceed Mrs. Mesta's best efforts is Mrs. Joseph Davies, wife of the former ambassador to Russia.

Marjorie Post Davies, who still calls Battle Creek "home," has everything Perle has . . . and more.

The cereal-heiress has more money, a more lush estate in which to throw grandiose parties; the most luxurious private yacht ("the Seacloud") in the world;

the intimate friendship of front-page folk of many lands; a live

husband who is a genial host; and

to top it all she's a raving beauty!

She's Not Ambitious

She too, is qualified to be an unofficial hostess to President Truman if he's looking for another. At inauguration time, the Davieses always throw a reception for the governors that is really something in lavish excellence.

But she lacks the most important impetus for striving for such a social role. Marjorie Davies isn't socially or politically ambitious.

She doesn't want anything she doesn't have!

Already few in Washington are

not eager to accept an invitation to Tregaron — in fashionable northwest Washington.

Her spring perennial garden parties are famous. And the Famous come when the rolling acres are a riot of color with blooming dogwood, azaleas and tulips. The party grew thru the years and became two, so that everyone "who is anyone" could come to enjoy the garden, sip champagne, and marvel at the strawberries each apparently a gardener's gem.

Marjorie Davies worships per-

fection of detail. Everything in her palatial home is a treasure, many a collector's item.

Every morsel of food served

would delight a gourmet. Her costuming is exquisite and especially right for her. A beautiful woman in a beautiful setting plus a friendliness as genuine as that of the Oklahoma heiress, all she needs to mount the vacated throne is the desire to do so.

Others Mentioned

Others are of course, men-

tioned.

Mrs. Morris Cafritz, wife of a wealthy real estate broker, is so modishly attired and bejeweled that she has a reputation as one of the ten best dressed women in Washington. She can offer a suitable residence on Foxhall Road, with a wonderful sweeping view of Washington thru the treetops. And 'tis said she has that desired ambition to climb to the No. 1 society spot.

The parties of Mrs. Dwight Davis, widow of a former Secretary of War, are smart and correct, but small. She seems to have little room for big functions.

The would-be and even a few

of the real intelligentsia dine well

at the formal home of Mrs. Robert Lew Bacon, but she lacks

that certain something that makes

them the equals of the famous.

Bureau Committee To Hold Meeting

Marquette, Mich.—At 10 a.m. next Tuesday, July 12, the committee appointed recently by James J. Beckman, President of the Upper Peninsula Development Bureau, will meet in Marquette to consider a new advertising policy and program for the Bureau.

The session will be held in the Bureau office in the City Hall and will be an all-day affair.

Members of the committee are G. Harold Earle, Hermansville; Lawrence Tucker and Don Smith, Iron Mountain; Howard Billings, Iron River; Jean Worth, Menominee; D. E. Crooker, Ontonagon; John I. Keeton, Munising; W. L. Burns, Ironwood; John Morrison, Marquette; Phil DeGraff, Trout Lake and John R. Merrifield, Sault Ste. Marie.

Principally, the special committee will consider the advertising budget for 1950; mediums to be used by the Bureau in future advertising programs, and changes to be made in the Lure Book for the next year. The group's recommendations will be presented at the annual Bureau meeting next fall.

From June 11 to Oct. 30, 1944, planes from aircraft carriers of the United States Navy destroyed 2472 Japanese aircraft while losing only 123 of their own planes, a ratio of 20 to one.

COOKS

Men In Service

Cooks, Mich.—Lonnie W. Wilson, D. K. S. N., Disbursing Office, Boca Chico Field, Key West Florida, is here on a thirty-day furlough. Last week he called on friends in Pontiac. He expects to leave for camp July 13.

Cpl. Matthew A. Walters, enlisted for three years, and stationed at Ft. Riley, Kansas, has spent a three day leave with his mother.

PERSONALS

Mr. and Mrs. Ray Vincent, daughter Viola and sons Edward and Thomas of Sault Ste. Marie, are spending a vacation at the Howard Williams home.

Mr. and Mrs. Alex Weigandt and Mr. and Mrs. Edward Gray spent the weekend at the home of Mr. and Mrs. Douglas Pilon of St. Ignace.

Mr. and Mrs. Ed Arnold and friends of Pontiac are visiting with Mr. and Mrs. Al Bouchard.

Mr. and Mrs. Elmer McClellan and son of Pontiac visited relatives here over the holidays.

Louis Impoden of Zion, Ill., was a recent visitor with friends here.

Phyllis Bouchard has returned from Pontiac after a visit with relatives. She was accompanied by Frances McClellan.

Fourth of July guests at the Herbert Popour home were Mr. and Mrs. Elmer Popour and family of Trenary, Mr. and Mrs. Chas. Mann and sons and Mr. and Mrs. Pete Popour, Roscoe, Ill., Mr. and Mrs. John Carey and daughter, and Mr. and Mrs. Lyle Leonard and family of Escanaba, Mr. and Mrs. Lou Popour of Manistique.

Mr. and Mrs. A. J. Peterson of Midland spent the holidays at their cottage at Carr Ponds.
